Hi,

we are a group of female and non-binary Hackers called Haecksen. We are a part of the Chaos Computer Club (CCC) and our main communication channel is a mailinglist. We are now more than ~800 women, mostly from German speaking areas. We currently have local groups in Stuttgart, Hamburg, Hannover, Karlsruhe, Berlin and [many more](#) and we meet regularly at bigger CCC events and at our annual Haecksen "geekend".
