

Welcome to the Haecksen community!

This is the English translation of [Willkommensinfos für Neuhaecksen](#).

This page contains the welcome mail information that is sent to new members. For the sake of clarity, we have tried to keep the welcome email as short as possible. Most of the information can be found here in the wiki.

TL;DR

- Mailing list
 - Unsubscribe: Mail to [haecksen-unsubscribe \[ät\] lists.ccc.de](mailto:haecksen-unsubscribe@lists.ccc.de)
 - Add new haecksen: see section [Mailinglist](#)
 - Do's: Information about events, handicrafts, feminism, organisation are welcome.
 - Don'ts: Please do not send any attachments or forwarding emails without permission.
- Rocketchat: Main communication channel, rocket.haecksen.org
 - You need an SSO account for this. You can get one on request at [admin \[ät\] haecksen.org](mailto:admin@haecksen.org).
- [Regional groups](#): Yes we have them, more info here in the wiki
- [Haecksen-Buddies](#): The Haecksen-Mentoring program, mail to: [buddy \(at\) haecksen.org](mailto:buddy@haecksen.org)
- [FAQ](#) and [Glossary](#): can be found here in the Wiki
- Dates: In the [calender](#), in the [Wiki](#) and on the [website](#).
- How to participate? Tasks and [hats](#) will be distributed regularly
- any more questions? [info \[ät\] haecksen.org](mailto:info@haecksen.org) or [#haecksen_frageecke](#) in Rocketchat

That's a lot of information here and maybe you have more questions? You can always send your questions to [info \[ät\] haecksen.org](mailto:info@haecksen.org) or ask them in [#haecksen_frageecke](#) in Rocketchat. If you are looking for more connection to our community, our [Buddy-Haecksen](#) will help you.

Mailing list

The mailing list is basically your Haecksen membership and now has more than 850 members (as of April 2024) - for this reason we want to keep the volume of communication low. The [Rocketchat](#) is therefore more suitable for chatting or talking.

The mailing list is there for nationwide networking. Here you can find out everything important. Information/topics that can be sent on the mailing list are, for example:

Do's

- Information on interesting events
- Call for Papers/ Participation/ Speakers
- Information on feminist issues, data protection, net politics, digital self-defence, handicraft fun, etc.
- Information on the Haecksen organisation and events
- Questions about Haecksen/technology/feminism/x
- Questions about connections/help/experiences/x

Dont's

- No attachments should be sent on mailing lists.
- If it is not explicitly allowed, the sender should be asked for permission before forwarding an email from this list to other people who are not on this list.

To remove your address from the list, send a message to: [haecksen-unsubscribe \[ät\] lists.ccc.de](mailto:haecksen-unsubscribe[at]lists.ccc.de)

ATTENTION: By unsubscribing you are leaving the haecksen community and your Haecksen accounts (Rocket, SSO etc.) will be deactivated!

If you know a person personally who would also like to be on the Haecksen list and who identifies with the Haecksen definition, please do the following:

- The interested person writes an email to [liste \[ät\] haecksen.org](mailto:liste[at]haecksen.org) with the request. They also CC the Haeckse they know, who can confirm the contact.
- The known Haeckse replies to [liste \[ät\] haecksen.org](mailto:liste[at]haecksen.org) and confirms or vouches for the new person.
- The admin haecksen put the new haeckse on the mailing list and send out the welcome email.

The silent list, "stille Liste"

If the volume of communication on the mailing list is too much for you, we recommend that you set up a subfolder, filter your inbox and then only take a look occasionally. This is what a lot of Haecksen do. The mailing list is where all the important information goes, so it's important that you check it from time to time.

If the amount of emails on the mailing list is too much for you, we recommend that you set up a filter.

If you still find it too much, you can of course unsubscribe at any time. However, by doing so you will leave the Haecksen universe and the community, which means that all your Haecksen accounts will be deactivated or deleted.

If you would like to be removed from the mailing list, but would like to remain Haeckse, you can switch to the "silent list" to keep your accounts. Write to us by email (admin@) or in the Rocket #adminfoo to express your wish.

Attention: We do not recommend the silent list as you will miss important information!

No(!) emails will be sent via the "silent list", except for urgent emergencies. All emails that arrive there are automatically held back, and only released after being checked by an admin (but will probably not be released). So why does this "silent list" exist?

- **For whom?** Haeckse who wants to stay Haeckse (e.g. use Rocketchat) but doesn't want to be on the main mailing list.
- **What for?** Mainly for account management. If your email address is neither on the main mailing list nor on the silent list, your accounts will be deactivated/deleted.
- **What emails are allowed on the silent list?** Almost none. If we ever shut down a service completely (e.g. Rocketchat), or if anything very significant changes on the accounts (e.g. change from regular login to SSO account login), we would inform you so that you can back up your data or set a new password.

If you are on the "silent list", it is your own responsibility to inform yourself about Haecksen activities. You can also find out the most important things via the Rocketchat #announce channel.

SSO-Account and Tools

SSO means Single-Sign-On and is something like a master key, i.e. a single account with which you can gain access to various services on haecksen.org. We use a tool called Keycloak as SSO implementation.

To use the Rocketchat, the Wiki and other tools hosted on haecksen.org you need an SSO account. You can get one on request from admin [ät] haecksen.org.

SSO access is e.g.:

- [Wiki](#) Login: To read plenary minutes and other non-public content and to create your own pages (participation is encouraged!).
- [Rocketchat](#): Chat with us!
- "Wolke" (cloud): If you need an account for our Nextcloud for a Haecksen project, you will get access (access rights on request in #adminfoo or via email).

More information about the SSO account can be found in our [admin guide](#) (only readable with login).

In addition, Haecksen uses a number of other tools. You can find a more complete list under [Tools & Accounts](#).

Rocketchat

Most of our communication happens in Rocketchat, which you can find here:

<https://rocket.haecksen.org>. There you'll find channels on many topics, from event organising to job ads and chit-chat.

You can access Rocket with your SSO account.

- You can find the list of all channels here: <https://rocket.haecksen.org/directory/channels>
- The most important channel you should definitely join is [#announce](#).

BigBlueButton

Meeting rooms for digital meetings (aka "Ada"). There are several rooms, which are usually provided with the respective appointment via Mailinglist, Rocket or within the Wolke calendar entry.

Here's a list of all available rooms: <https://events.haecksen.org/#rooms>.

Meetups, Dates and Events

All internal and some external Haecksen meetups can be found in our calendar. All meetups entered there are open to all Haecksen (i.e. everyone who is on our mailing list). Only Haecksen who need a cloud account have write access to the cloud (and thus write access to the calendar). If you want to add a new date, you can find contact persons on the [hats](#) page or in Rocket #haecksen channel.

- [Haecksen-Calender](#)
- [CalDav-Link](#)

There are also various geekends and other hacking events that might be of interest. You can find an incomplete list here:

- events.haecksen.org: current and past public events organised or co-organised by Haecksen.
- [Dates](#): An (incomplete) listing of current and past events and geekends that Haecksen are participating in.

Haecksen-Buddies

Since January 2022, there has been a Haecksen buddy programme, similar to the Chaos-Pat*innen at CCC events. To join the Haecksen, you can also register at `buddy {at} haecksen.org`. You will then be assigned a buddy Haeckse who can meet you (virtually), answer your questions, take you to (virtual) meetings, establish contacts to other Haeckses and maybe even show you the different tools (like Pads, Rocketchat) we use. Our goal is to facilitate your entry into our community and to be your first social contact or anchor.

You can find more information about the project on [Haecksen-Buddy-Line](#).

You want to join? Write to `buddy [ät] haecksen.org`

Regional / local Groups

Regional or local groups like to meet live on site, some have their own Rocketchat channels and mailing lists. You can find a list of existing groups [here](#). We are always happy to hear about new groups. It is possible that this list is no longer up to date. Just ask via the list if there are more of us from your area.

More information:

Projects and other options for participation

In principle, there are no prerequisites for participation in the Haecksen world. You can always participate passively or out of curiosity in all meetings that interest you. If you don't understand something, don't be afraid to ask for explanations or help. No existing skills are required to get involved in a project or task. The only thing that counts is your interest in the topic.

If it becomes too much for you, you can withdraw from a project at any time and hand over tasks, because self-care is very important to the Haecksen. If you withdraw, just let the group know. If you are not sure whether you are interested in a topic or a task, you are also welcome to participate passively in chat channels or at meetings and lurk a bit and get a taste of it. Haecksen who only listen are also welcome at any time.

And as mentioned above, if you're having trouble connecting with us, feel free to contact our [Buddy-Haecksen](#).

- [Rocket](#): The easiest way to get involved with the Haecksen is to check out the Rocket chat to see which channels you'd be interested in (even if they're not very busy), join the channels and the conversations.
- [Projects](#) and [active groups](#): There is always demand for new people in projects. Dare to join them, even if you don't think you fit the requirements perfectly. If you have less time, you can easily hand over tasks again.
- [Events](#): The event-orga teams are almost always looking for support. We are happy about helping-elves as well as content-related contributions (giving talks, workshops, etc.). More info also in the Rocketchat channel #eventorga.
- [Hats](#)/Tasks: There are always different content-related, organisational or administrative tasks. If you would like to take responsibility for a project or task, please come and join us.
